
ADVERTISEMENT FOR BIDS

Sealed bids for a lump sum subcontract are invited from prequalified subcontractors (hereinafter "Subcontractors") for the following work:

UCLA GAYLEY TOWERS REDEVELOPMENT Project Number 908052.01 Bid Package No 26 - Fire Sprinkler

GENERAL DESCRIPTION OF WORK: The proposed Project involves the demolition of an existing University-owned six-level, approximately 57,075 gross square foot (GSF) apartment building on the approximately 20,831 square foot (sf) (0.48 gross acre) project site, and the construction of an eight-story, approximately 112,000-gsf co-living style of housing with communal living and study spaces on each floor. Co-living housing is a hybrid of dorm-style housing with community bathrooms and shared spaces for students to cook, eat, study, and socialize. The proposed Project would provide 187 bedrooms and up to 545 beds in triple-occupancy rooms, of which at least 65 percent (358 beds) would be offered as affordable beds. When compared to the existing building, the proposed Project would result in a net increase of 445 beds (residents), and a net increase of approximately 54,925 GSF of development.

The proposed project would include a central courtyard, which would be enclosed on all sides and open to the sky, and other landscape and hardscape elements would be installed. On-site vehicular parking for residents would not be provided. A service drive/garage accessed from Gayley Avenue, which would be located at the northwest corner of the building, would provide a single parking space for service vehicles and deliveries, and allow direct access for trash removal.

On-site alternative transportation facilities would include a bike storage room on the ground level, as well as a designated area for scooter parking. Pedestrian access to the proposed building would be provided from the existing sidewalk on the south side of Gayley Avenue. The site work will include demolition, excavation, site clearing, shoring and installation of concrete shear walls. A hazardous materials report will be available for information, abatement of hazardous materials will include select areas of roofing, sheet vinyl flooring, disposal of fluorescent bulbs. The building will consist of concrete foundations, post tensioned elevated slabs and metal wall framing. Exterior finishes will include glazing systems and integrally colored cementitious plaster while interior finishes will include gypsum board, painted wall board, painted concrete, luxury sheet vinyl flooring at dorm rooms, carpet at common areas and ceramic tile at wet areas. A large subterranean vault will be constructed to house LADWP electrical service equipment to support the electrical needs of the building. Municipal utility connections will include sewer, electrical, domestic and fire water. A gas service is not anticipated as the building will be fully electrified. The project work hours will adhere to Los Angeles City noise ordinances.

The Project site is not identified on any lists of hazardous waste sites compiled pursuant to California Government Code Section 65962.5.

The Anticipated Overall Construction Contract Value is \$83,500,000.00

The University has bid and awarded a CM at Risk Contract to PCL Construction Services, Inc. (hereafter "CM/Contractor"). CM/Contractor is responsible for bidding and awarding all subsequent subcontractor packages, including this package. The successful Subcontractor Bidder shall sign a Subcontract Agreement directly with CM/Contractor and shall be bound by all the terms of the contract between the University and CM/Contractor. Refer to Exhibit H – Prime Contract which contains the contract between the University and CM/Contractor, attached to the subcontract bidding documents and incorporated by this reference.

Bid Package 26: This Bid Package scope consists of: Furnish and Install and complete the fire sprinkler system for the building including a FD connection.

The estimated construction cost of this bid package is \$1,183,272

C16 License

<p><u>PREQUALIFICATION:</u> The CM/Contractor has prequalified Fire Sprinkler Subcontractor bidders for this Bid Package and posted a list of said firms on the SmartBid website</p>

Every effort will be made to ensure that all persons have equal access to contracts and other business opportunities with the University within the limits imposed by law or University policy. Each Bidder may be required to show evidence of its equal employment opportunity policy. The successful Bidder and its subcontractors will be required to follow the nondiscrimination requirements set forth in the contract between the University and the CM/Contractor and to pay the prevailing wage at the location of the work.

In addition, the University is committed to promoting and increasing participation of small business enterprises (SBEs) and disabled veteran business enterprises (DVBES) relating to all goods and services covered under the awarded agreement, subject to any and all applicable obligations under state and federal law, and University policies. The awarded contractor shall make best efforts to provide qualified SBEs and DVBES with the maximum opportunity to participate. Please email ContractsAdministration@capnet.ucla.edu for further information.

The work described in the contract is a public work subject to section 1771 of the California Labor Code.

No contractor or subcontractor, regardless of tier, may be listed on a Bid for, or engage in the performance of, any portion of this project, unless registered with the Department of Industrial Relations pursuant to Labor Code section 1725.5 and 1771.1.

This project is subject to compliance monitoring and enforcement by the Department of Industrial Relations.

The successful Bidder shall pay all persons providing construction services and/or any labor on site, including any University location, no less than the UC Fair Wage (\$15 per hour) and shall comply with all applicable federal, state and local working condition requirements.
